Indulging in charms of sea and island

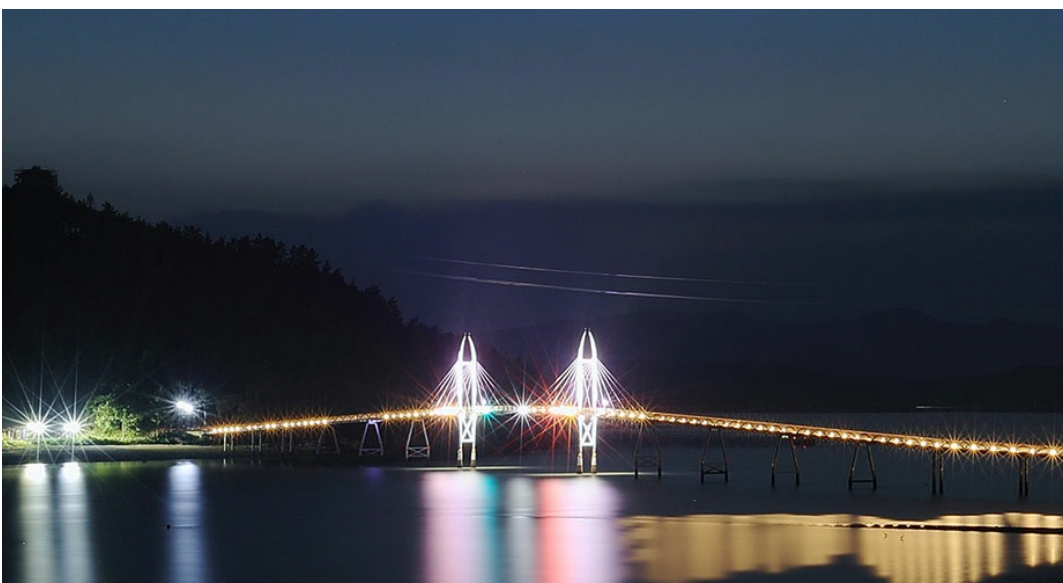

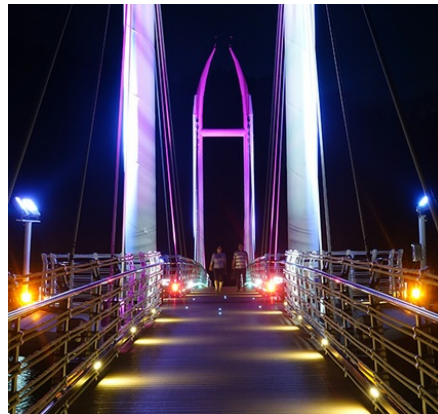

Gaudo Island, designated as one of the 'islands to visit' in Jeollanam-do, is the only manned island among eight islands in Gangjin. Gaudo is connected to Daegu-myeon and Doam-myeon via the Jeodu Suspension Bridge (438m) and the Mangho Suspension Bridge (716m) collectively, and the culture and eco trail, 'Hamgge Hae Trail (2.5km)' along the coastline is a heavenly trekking course with an outlook over the mountains and the sea, visited by many tourists.

At the 25m Celadon Tower at the peak of Gaudo Island, you can take a look at the beautiful scenery over the Gangjinman Bay, and the zip track (aerial downhill track) offers a thrilling flight downhill.
