Gangjinman Bay Dancing Reed Festival	3
A moment of encountering in life, into the peaceful golden wave of reed	3
Festival Overview	3

At the Gangjinman Bay eco-park, an origin of life and a home for 1,131 species, a festival of music is held during the beautiful sunset. Diverse programs for all people regardless of age and gender such as walking along the eco-trail of Gangjinman Bay can make you feel the romantic mood of autumn. Another way of enjoying the reed festival is appreciating the feast of lights pouring in a distance over the autumn sea. A laser show is displayed over the 700,000㎡ broad reed field. The laser show in addition to the charming eco-park will make a memorable autumn night.

At the reed festival are held diverse trial events such as Hanbok trial, broomstick making, SNS photo shooting, VR trial, goggle-eyed goby tasting and kite flying in addition to the celebration show and the busking performance. Rental bicycles are available free of charge to travel across the 200,000 pyeong Gangjinman Bay eco-park, so try riding across the reed field under sunset. The eco-park is decorated by cosmos flowers that are spectacles of autumn in addition to reed field that will give you another memorable event.

A moment of encountering in life, into the peaceful golden wave of reed
